### 10 examples of circular economy solutions

10. May 2018 Nina-Zingg Interesting links (0)

In this interesting article you can find 10 solutions to switch from linear to circular economy. They mention different ideas for everyday commodities for example a circular travel or cloth solution. If you want to look at the other ideas/solutions [click here](#).

The article is written by a group who is called "State of Green". They are part of the climate consortium of Denmark. I think this is a reliable resource.

### Water Pollution

JANUARY 26, 2018 / TEAM ZURIZMIR WATER

Introduction Water is the beginning of life. Especially sweet water, which makes our planet so unique. Life is only possible with its existence and we couldn't survive without. Only three percent of the water on earth is sweet water (or ... [Continue reading](#)

### Buy Fair, Be Fair – Fair trade

JANUARY 26, 2018 / TEAM ZURIZMIR FAIRTRADE

Introduction The conditions that sadly still exist in developing and emerging countries in the 21st century are repulsive. There are to this day plenty of workers that receive despite their hard work a
